

JL-241J Base

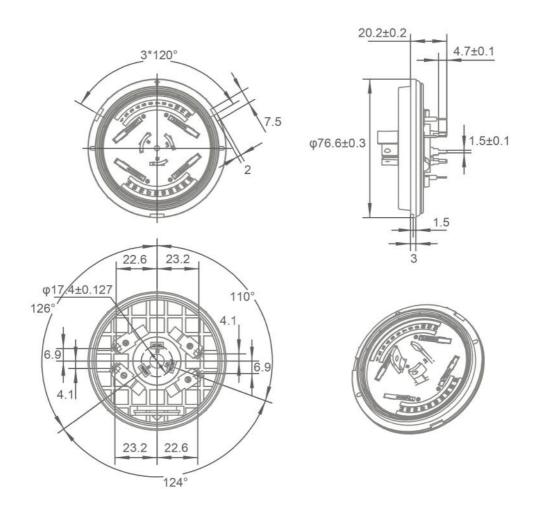

Product image

Product Summary

Shanghai Longjoin Wireless Single Lamp Controller Housing Kit is based on 5pin and 7pin NEMA interfaces, and is mainly used for lighting energy-saving control and other built-in electronic controller products. The power connection adopts standard NEMA plugs, which are rotationally locked; The signal connection uses gold plated shrapnel to ensure stable transmission and achieve intelligent control of lighting equipment.

Specifications

Model No.	JL-241J
Rated Voltage	Max 480Vac
Rated Frequency	50/60Hz
Rated Loading	15A
Signal Control	0-30 VDC, 250 mA Max
IP	IP66(Reachable after assembly)
Material Quality	PBT
Ambient Temperature	-40°C~ + 70°C
